

Pasture Principles

A practical guide to pasture management

18 March, Clare, SA
31 March, Coomandook, SA

2 April, Lower South East, SA
7 April, Hamilton, Vic

Livestock producers who are highly skilled in pasture management are more profitable than those with less developed skills.

Pasture Principles has been custom-designed for livestock producers who want to learn how to confidently manage their pastures, regardless of the season, situation or system.

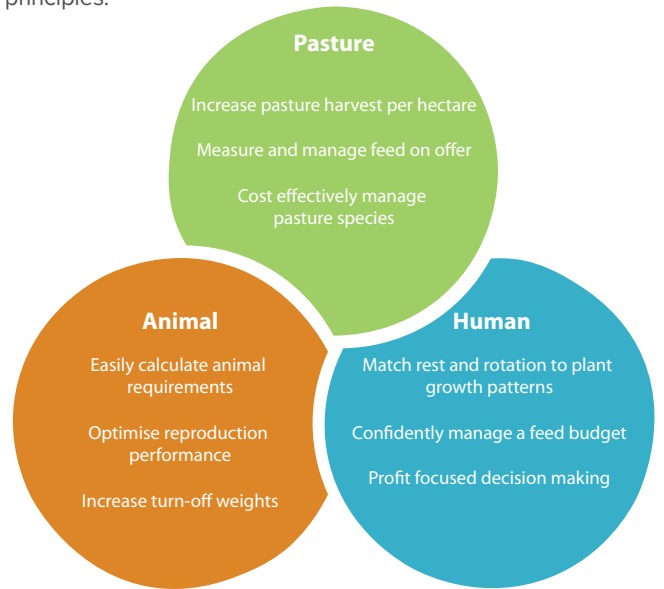

Delivery

“Spot on, simple and relevant to our system.”
Peter, sheep and cattle producer, 2018 Millicent

Benefits

Pasture Principles focuses on the Pasture : Animal : Human interface. The practical ‘in-field’ coaching sessions develop skills, linking theory to practical application of key grazing management principles.

Investment

With support from MLA's Profitable Grazing Systems, this program is offered at **\$1,850 (GST exc.) per business**, for up to three participants per business (commercial cost \$2,500 GST exc).

Pasture Principles was developed by Macquarie Franklin and is delivered under licence by Rural Directions Pty Ltd.
